REASONS FOR ALLOWANCE

1. The following is an Examiner's statement of reasons for allowance: It was deemed during the Appeals conference/Patentability conference that Applicant's arguments regarding the state of the art at the time of filing are persuasive. Specifically, Applicant has set forth a convincing argument and corresponding evidence noting my combination of references used in the 103 rejection are deficient because these teachings would not have been recognized by those of ordinary skill in the art at the time of Applicant's filing as conventional therapies. During our conference we concurred with Applicant's arguments and supporting documents. Moreover, the double patenting rejection over co-pending application number 10/314,330 is moot given a terminal disclosure was submitted and approved regarding the instant application and overlapping patents.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

2. Any inquiry concerning this communication or earlier communications from the Examiner should be directed to Alana M. Harris, Ph.D. whose telephone number is (571)272-0831. The Examiner works a ***flexible schedule***,
